

EDUCATION

Indraprastha Institute of Information Technology Delhi [IIIT DELHI] <i>Bachelor of Technology - Computer Science and Artificial Intelligence</i>	Delhi, India Nov 2022 - May 2026
Lal Bahadur Shastri School, R.K. Puram <i>CBSE 12th Board</i>	Delhi, India Apr 2019 - Mar 2021

- SKILLS
- **Programming:** Python, SQL, C++, Java, C, Haskell
 - **Artificial Intelligence:** Machine Learning, Deep Learning, Generative AI, Agentic AI, Large Language Models (LLMs), Natural Language Processing, Computer Vision, Retrieval-Augmented Generation (RAG)
 - **LLM Engineering:** LangChain, LangGraph, MCP (Model Context Protocol), AI Agents, Function Calling, Agent Orchestration, Semantic Search
 - **Data & Infrastructure:** FAISS, Vector Databases, Neo4j, Apache Spark, Hadoop
 - **Core CS & Mathematics:** Data Structures & Algorithms, Operating Systems, DBMS, Probability & Statistics, Linear Algebra
 - **Domains:** Quantitative Finance, Robotics, Multilingual AI

EXPERIENCE

Witty Lab, IIIT Delhi <i>Undergraduate Researcher – Prof. Pragya Kosta</i>	Jan 2025 – Apr 2025
◦ Project Focus: Retinal ganglion cell modeling using deep neural networks	
◦ Contribution: Developed CNN-BiLSTM and BNCNN pipelines for neuronal firing rate prediction; implemented data preprocessing and model training pipelines	
Cryptography Research, IIIT Delhi <i>Undergraduate Researcher – Prof. Ravi Anand</i>	Jan 2025 – Apr 2025
◦ Project Focus: Neural cryptanalysis of lightweight symmetric ciphers	
◦ Contribution: Designed ResNet and CNN-BiLSTM distinguishers; integrated classical differential patterns into model training	

PROJECTS

AegisRag-Engine: Offline Enterprise RAG Platform <i>RAG, FAISS, Vector Databases, NLP</i>	Github Jun 2026
◦ Engineered an offline RAG system with semantic chunking, vector embeddings, and FAISS-based retrieval for efficient document intelligence and knowledge search.	
Adversarial Contingency Auctions <i>Multi-Agent Systems, Robotics, Decision Making</i>	Github Apr 2026 – May 2026
◦ Developed a decentralized adversarial auction framework for multi-robot coordination under uncertain beliefs, communication failures, and stochastic infrastructure collapse.	
Gendered Abuse Detection in Indic Languages <i>Deep Learning, NLP, Multilingual AI</i>	Github, Kaggle Feb 2025 – Apr 2025
◦ Built a multilingual abuse detection pipeline using robust preprocessing, multi-task learning, and XLM-RoBERTa/CNN-BiLSTM models for English, Hindi, and Tamil tweets, achieving a 0.67771 Macro F1 score and surpassing the highest public benchmark of 0.61604 on the ICON shared task.	

CERTIFICATIONS

• Micro1 AI Certified 2026	Certificate Link
• IBM Maitreyee 2025	Certificate Link
• Self Driving Cars, University of Toronto	Certificate Link
• Functional Programming I and II (Haskell MOOC), University of Helsinki	Certificate Link

HONORS AND AWARDS

- Secured **3rd** place among **100+** teams in *Sherlocked Enigma '25* at Lady Shri Ram College
- Core member, *Math Talk 2024* – organized by Math Club (Evariste), drew **150+** participants
- Member, performer, *Music Week 2025* – hosted by Music Club (Audiobytes), with **100+** participants

POSITIONS

• Events OC , Odyssey IIIT Delhi Cultural Fest	Jan 2024
• Core Member , Evariste IIIT Delhi Math Society	Nov 2022 - Present
• Core Member , Audiobytes IIIT Delhi Music Society	Jan 2025 - Present
